Copyright StelCrete November 2004

Stelcrete offers you pre-assembled steel cages to reinforce your concrete light pole bases. The cages are accurately produced, securely welded and meet all industry standards. StelCrete is fully certified by The Canadian Welding Bureau (CWB) to CSA Standard W186M, "Welding of Reinforcing Bars in Reinforced Concrete Construction". Domestic steel is used in the assemblies and is CSA-certified under standard G30.18, "Billet-Steel Bars for Concrete Reinforcement."

- Easy to use.
- Accurately built.
- Economical.
- On time delivery.
